

DePuy Synthes ASC & Outpatient Preceptorships Guide

At Johnson & Johnson Medical Devices, we recognize the overall migration of higher acuity cases to lower acuity sites of care. When it comes to your outpatient learning journey, we aim to be your educational partner of choice by offering team-based, interactive programs at the National, Regional, and Local levels, engaging Digital content through the Johnson & Johnson Institute and partnerships with key societies.

Value of Education

Our Mission:

Together with healthcare professionals around the world, we share the same goal: provide patients with the best and most compassionate care. As a trusted and innovative educator, Johnson & Johnson, through its family of companies, offers professional education, development, and advocacy focused on advancing health care delivery on the safe and effective use of company products.

By combining cutting edge science, innovative therapies, and the latest solutions and technologies, we help health care professionals achieve our shared purpose.

Advancing your Outpatient Learning Journey together,

Outpatient Preceptorships

Your ASC Outpatient Learning Journey

These in-person meetings are designed for orthopaedic surgeons, anesthesiologists, senior administrators and operational leaders interested in advancing their collective knowledge on transition of surgical care from the inpatient to the outpatient setting. Topics to be discussed include ways to improve clinical outcomes, increase patient satisfaction, reduce cost, and enhance operational and financial success.

Johnson & Johnson Institute

**Extensive
Content available
for both PC and
Mobile Devices**

**Featuring ASC-specific
education content for Joint
Replacement, Outpatient
Spine, Sports Medicine, and
Trauma procedures organized
around three key areas:**

- Clinical Excellence
- Economic Value
- Operational Support

ASC Preceptorship Visitation Sites

Buffalo Surgery Center—Buffalo, NY

Overview:

Western New York's leading ambulatory surgery center, dedicated to the surgical treatment of patients. Accredited by the Accreditation Association for Ambulatory Health Care (AAAHC). Achieving this certificate demonstrates BSC's commitment to provide safe, high-quality services to patients. It is recognized as a symbol of quality by third-party payers, medical organizations and state and federal agencies.

Visit details:

This visitation program, focused on the safe and effective use of Company products, is designed for a group of orthopaedic surgeons, administrators, and operational leaders representing a single hospital or practice, to learn from and engage with David Uba, Dr. Violante and their team to better understand and experience an award winning total joint arthroplasty patient experience.

Faculty:

Dave Uba: CEO, Buffalo Surgery Center & Excelsior Orthopaedics

Dr. Nicholas Violante: Specializes in the treatment of hip and knee conditions, with expertise in total joint replacement – including revisions to previous total joint procedures. He has extensive training in the use of minimally invasive joint replacement procedures.

- **Medical School:** Saint Vincent College and the Lake Erie College of Osteopathic Medicine
- **Fellowship:** Allegheny General Hospital in Pittsburgh, PA.

ASC Preceptorship Visitation Sites

Cypress Creek Outpatient Surgical Center—Fort Lauderdale, FL

Overview:

Axis Healthcare Partners, a recognized leader in ASC operations, is the Managing Partner of CCOSC. This management team is comprised of seasoned executives and managers leveraging over 87 years of combined experience in the Healthcare environment. This experience includes capital equipment, medical and surgical commodities, consulting, strategic planning, executive leadership, operations, distribution, administration, and customer/ patient relations. Boasting a 99.4% patient satisfaction rate, the Cypress Creek Outpatient Surgery Center is one of the leading ASCs in the state of Florida.

Visit details:

This visitation is focused on the safe and effective use of Company products, and is designed for a group of orthopaedic surgeons, administrators, and operational leaders to learn from and engage with Dr. Daniel Chan and his surgical team. The educational objective will be to better understand and experience their vision of a high-quality outpatient total joint arthroplasty patient experience.

Faculty:

Dr. Daniel Chan is a board certified, fellowship-trained orthopaedic trauma surgeon who specializes in fracture care and joint replacement. Dr. Chan performs minimally invasive and muscle sparing Anterior Approach total hip replacement utilizing the latest techniques and instrumentation including navigation and the Hana orthopaedic table. Dr. Chan also performs minimally invasive knee replacement surgery using custom, patient-specific implants and instrumentation. He is an active member of the Orthopaedic Trauma Association, serves as a faculty member for AO North America, and is a Fellow of the American Association of Hip and Knee Surgeons. He is currently the Chief of Orthopaedic Surgery and Sports Medicine and the Medical Director for Orthopaedic Trauma for the Memorial Healthcare System.

- **Medical School:** University of Michigan Medical where he was inducted into the Alpha Omega Alpha Honor Society.
- **Residency:** University of Miami/Jackson Memorial Hospital, where he was selected to be Administrative Chief Resident
- **Fellowship:** Hospital for Special Surgery / Weill Cornell Medical Center in New York City Dr. Chan also completed his orthopaedic trauma fellowship at the Hospital for Special Surgery / Weill Cornell Medical Center in New York

Faculty:

Led by Dr. Joel Politi, a board certified orthopedic surgeon specializing in joint replacement and reconstruction. Dr. Politi is actively involved in clinical research and has numerous publications in leading orthopedic journals. He is ranked among the top orthopedic surgeons in the country, being voted to the prestigious Best Doctors® and America's Top Doctors® lists by his peers in 2015, 2016 and 2017. Dr. Politi has also been honored many times by his patients, and is a three time recipient of a Guardian Angel Award, an award given by the Mount Carmel Foundation on behalf of patients. In 2003, Dr. Politi founded COSI's Surgical Suite: Total Knee Arthroplasty program, which allows students in high schools throughout the country to watch a live surgery through interactive media. Since its founding, the program has reached more than 100,000 students.

- **Medical School:** Hahnemann University, Philadelphia, PA
- **Residency:** Albany Medical Center, Albany, NY
- **Fellowship:** Adult reconstructive orthopedic surgery, Harvard University

ASC Preceptorship Visitation Sites

Presidio Surgery Center—San Francisco, CA

Overview:

Presidio Surgery Center is an ambulatory surgery facility which has been providing high quality care to patients in San Francisco since 1989. Modern medical advances have made it possible for an adult or child to have non-emergency surgery and return home the same day. The Presidio Surgery Center is accredited by The Joint Commission (www.jointcommission.org) and is Medicare Certified, meeting the highest quality standards while consistently exceeding national benchmarks for safety.

This affordable and convenient alternative to overnight hospitalization has earned this institution a reputation as the region's "Center of Excellence for Outpatient Surgery".

Visit details:

This visitation program is designed to learn about the safe and effective use of company products for orthopaedic surgeons, administrators, and operational leaders representing a single hospital or practice. During your visit, your team will have the opportunity to learn from and engage with Dr. Robert Mayle and his team to better understand their vision and implementation of a high-quality outpatient total joint arthroplasty patient experience.

Faculty:

Dr. Robert E. Mayle is a fellowship trained, board-certified orthopaedic surgeon who specializes in hip and knee replacement. He is skilled at anterior hip replacement, minimally invasive hip, knee and partial knee replacements, as well as advanced techniques in managing complications of failed or painful hip or knee replacements.

Dr. Mayle has worked extensively on perioperative techniques to reduce pain and restore function in patients following surgery. He has published numerous articles and book chapters, has presented at national and international conferences, and has performed award winning research.

Dr. Mayle completed his joint replacement fellowship at Rush University, widely regarded as one of the top fellowships in the country under the pioneers of minimally invasive and complex revision joint replacement surgery.

- **Medical School:** Drexel University, Philadelphia, PA
- **Residency:** Stanford University, Stanford, CA
- **Fellowship:** Rush University, Chicago, IL

ASC Preceptorship Visitation Sites

Proliance Surgery Center at Valley—Renton, WA

Overview:

Founded in 1973, Proliance Orthopedic Associates is one of the largest orthopedic clinics in greater Seattle, Renton, and Covington, WA. Formerly known as Valley Orthopedic Associates, POA welcomes more than 50,000 patients each year, offering orthopedic surgery and general orthopedics for the hand, wrist, shoulder, elbow, foot, ankle, and spine, as well as full-body MRI imaging services, sports medicine, pain management, digital radiography, and bone densitometry.

POA orthopedic surgeons specialize in joint replacement surgery, such as knee and hip replacements, spine surgery, and more at our JCAHO-accredited outpatient ambulatory orthopedic surgery center. POA doctors are involved in the design and development of some of the most commonly used joint replacement components.

Visit details:

This visitation program, focused on the safe and effective use of Company products, is designed for a group of orthopaedic surgeons, administrators, and operational leaders, representing a single hospital or practice, to learn from and engage with William P. Barrett, MD, Timothy B. Alton, MD and their team to better understand and experience their vision of a high quality total joint arthroplasty patient experience.

ASC Preceptorship Visitation Sites

Proliance Surgery Center at Valley—Renton, WA (cont.)

Faculty:

Dr. William Barrett is board certified and fellowship-trained orthopedic surgeon who specializes in primary and revision hip and knee replacement. He performs over 500 joint replacement procedures annually. He is actively involved in clinical research on Anterior Approach Total Hip Replacement (THR) and Total Knee Replacement (TKR). His research department maintains a prospective joint registry, tracking the outcomes of their hip and knee replacement patients. As a nationally recognized joint replacement surgeon, Dr. Barrett lectures globally on hip and knee replacement topics. He has been active in the American Academy of Orthopaedic Surgeons Continuing Medical Education programs. He is the chairman of the Education Committee for the American Association of Hip and Knee Surgeons (AAHKS). Dr. Barrett has been and continues to be, involved in the design of some of the most commonly used hip and knee replacement systems. He is the medical director for the Joint Center at Valley Medical Center in Renton, WA, recognized by HealthGrades as one of America's 100 best hospitals for Joint Replacement 2014-2016. The Center for Medical Services ranks Valley Medical Center one of the Top 95 centers for joint replacement in the U.S., and the only recognized center in Washington state. He is president of the VOA Research Foundation and practices at the Proliance Orthopedic Associates Renton office.

Dr. Barrett was named a top doctor for joint replacement from 2007-2016 by Seattle Magazine and Seattle Metropolitan Magazine.

- **Medical School:** University of Southern California School of Medicine, 1980
- **Residency:** University of Washington, Department of Orthopedic Surgery, 1985
- **Fellowship:** Arthritis Surgery and Joint Reconstruction, Brigham and Women's Hospital, Harvard Medical School, 1986

Dr. Alton is a Seattle knee and hip doctor who specializes in the management of acute fractures, malunions and nonunions of the upper and lower extremity in addition to both primary and revision hip and knee replacements. Dr. Alton has a particular interest in direct anterior total hip replacement surgery and moving joint replacement surgery from the inpatient to outpatient setting. Dr. Alton is a dual-fellowship trained orthopedic surgeon. He completed his first fellowship in fracture surgery at Harborview Medical Center in Seattle, WA then completed a second fellowship in adult reconstruction, hip and knee replacement surgery. He trained directly under Dr. William Barrett at Valley Medical Center, mastering the direct anterior approach for total hip replacement and learned Dr. Barrett's technique for primary knee replacements. He then traveled the country learning advanced arthroplasty and revision techniques from master surgeons at the Florida Orthopaedic Institute in Tampa, FL and at the world-renown Mayo Clinic in Rochester, MN. He has published in national and international journals, has written multiple book chapters and presented his research at local, national and international meetings..

- **Medical School:** Wake Forest University in Winston-Salem, NC
- **Residency:** University of Washington in Seattle, WA
- **Fellowship:** Orthopedic Traumatology and Fracture Care: Harborview Medical Center in Seattle, WA
Adult Reconstruction, Hip and Knee Replacement Surgery: Mayo Clinic in Rochester, MN; Florida Orthopaedic Institute in Tampa, FL; William Barrett M.D. Direct Anterior Total Hip Arthroplasty
